The 95th year of this beautiful gem of a theater is quickly coming to a close, and as 2022 ends we have much to be thankful for, as it has been another outstanding year: Over 135,000 patrons came through our doors; we were recognized again as one of Pollstar's Top 150 Theaters in the World; and we brought world-class artists from across genres to the stage of The Grand.

We thank all of you who have supported us this year and made it such a success!

As the calendar turns, we are very excited about what is to come in 2023. From Broadway hits *Hairspray* and *Chicago*, to visits from Wausau favorites Colin and Brad and so much more, there are so many amazing performances to come. Thanks for your support of The Grand in 2022! Best wishes to you and yours for a wonderful holiday season!

OUR PLANET LIVE IN CONCERT

A stunning new show, on Earth

Some of most magnificent film footage of the natural world ever captured has become a breathtaking new stage production. You can be among the first to experience the grandeur of OUR PLANET LIVE IN CONCERT on March 16 when the Grand Theater hosts the only Wisconsin stop on the show's debut U.S. tour.

Prepare to be mesmerized as the landmark eight-part *Our Planet* documentary series becomes a two-hour live show filled with beautiful visuals and sound effects, all accompanied by a live orchestra on stage and narrated on screen by the voice of legendary broadcaster David Attenborough. The show brings the incredible cinematography of the series to the big screen in full HD quality, as dazzling, intelligent lighting effects create a concert experience unlike any other.

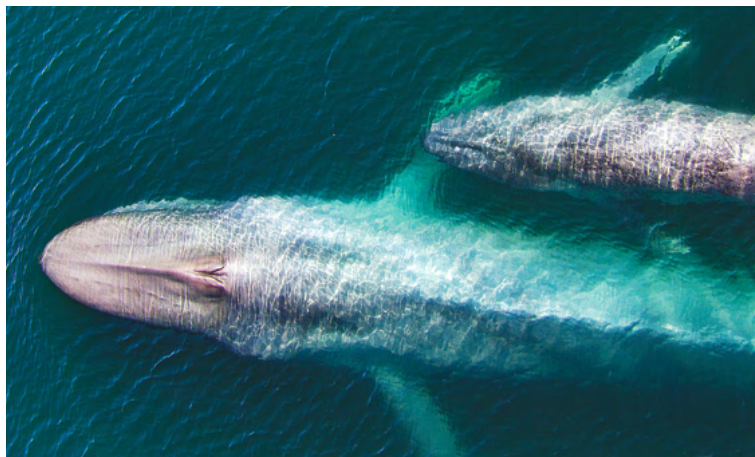

The Emmy Award-winning docuseries *Our Planet* took the world by storm when it was released on Netflix in April 2019, taking viewers on a spectacular journey of discovery and showcasing the beauty and increased fragility of our natural world. The producers of OUR PLANET LIVE IN CONCERT edited the most stunning sequences from the series to deliver a unique, compelling narrative meant for live audiences to experience on a great scale on stage.

Composer Steven Price's Emmy-nominated score has been reworked for this epic event, performed by an 18-piece orchestra. OUR PLANET LIVE IN CONCERT brings together some of the world's greatest creatives, filmmakers, musicians and conservationists to create a stage production unlike any other. A portion of the show's proceeds will benefit World Wildlife Fund, a producing partner of the documentary series.
